September 2010

September is both *Read a New Book Month* and *Library Card Sign up Month*

This brings up the question "What can a library card do for me?" Well, besides the obvious ability to check out our new books, there are many other benefits to having library card. With a Lake County Library card you can:

- Check out fiction and non-fiction books
- Check out back issues of magazines
- Check out "Playaways", digital audio books
- Check out Books on compact disc
- Check out Books on cassette tape
- Check out DVDs and videos
- Check out music CDs
- Place holds on materials that are currently checked out
- Order books on Interlibrary Loan from libraries elsewhere in the United States
- Use public computers for 3 hours per day
- Access library databases like Ancestry and Orlando Sentinel
- Access Rosetta Stone language learning software

And what does this card cost?

There is no charge to get a library card.

However, there are responsibilities that come with library card privileges. Those are outlined on the application form for your card.

So please come in or sign up online to get a Lake County Library card and enjoy all that the Leesburg Public Library has to offer!

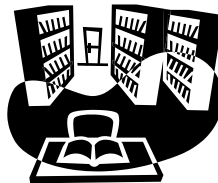

**For further information:
please call 352-728-9790
or E-mail:**
