RE: Bid Proposal

**BID PROPOSAL**  
For Tussock & Vegetation Removal in Lake Lorraine,  
Leesburg, Florida

**Applied Aquatic Management, Inc. (AAM)** will supply the following equipment to remove floating tussocks and aquatic vegetation from Lake Lorraine:

"Tiger Cut" Shredding Machine & Labor	\$160.00/hr
Model 800 Aquatic Weed Harvester, Shore Conveyor & Labor	\$200.00/hr
Dump Truck(s) & Licensed Driver (if required)	\$65.00/hr (each)

**The cost for this project shall not exceed the amount of \$75,000.00.**

The Model 800 Aquatic Weed Harvester will be used to remove floating vegetation and tussocks from Lake Lorraine. A shore conveyor will be provided to off-load the harvested material and then transferred to the dump truck(s). All removed material will be deposited at the approved disposal site as directed by the City of Leesburg Project Manager. The ESTIMATED time frame to complete this project is four weeks (20 working days).

The "Tiger Cut" shredding machine may be required and used to cut tree islands for the harvester to remove.

**Job Information:**

Workdays will be a minimum 8-10 hours per day.

All material harvested will be deposited at the City of Leesburg's designated disposal site.

Start date and time can be as soon as all approvals are received and a "Notice to Proceed" is provided.

Please call, Telly Smith (863.287.1081) if you agree to this proposal and a start date can be arranged, or if you have any questions concerning this proposal.

**Thank you for the opportunity to submit this proposal.**
