RE: LEESBURG ITB 110101

Mr. Miller,

City of Leesburg fleet services has completed their evaluation of the bids received in response to our ITB 110101 for the purchase of a new cab & chassis with truck mounted jet/vac rodder. Staff will recommend to commission award be made to the second low bidder Southern Sewer Equipment Sales.

Evaluation of the bids has found the following items related to your proposed equipment, a Sewer Equip. Co. Jet/Vac to be significant enough to not recommend award to your company.

Although the Cab and Chassis was satisfactory; elements of the jetting system were found to be not available or unsatisfactory, such as, the hose reel assembly, tank, and vacuuming system.

I will be recommending to commission at their February 28, 2011 meeting that they award the purchase to the second low bidder. Should you wish to discuss these items with our fleet staff, please contact me at (352)728-9880 and I will arrange a meeting.

Respectfully,

Mike Thornton
Purchasing Manager
