Ken Thomas
Housing and Economic Development Director
City of Leesburg
501 W. Meadow Street
Leesburg, Florida 34748

Mr. Thomas,

The West Leesburg Community Development Corporation (WLCDC) has designed a Seniors Home Repair Program Project to assist some elderly citizens of the Carver Heights, Montclair, and Woodland Park areas of West Leesburg. This project has agreements with several Community Partners to achieve the following:

- Exterior paint (local business)
- Pressure washer (local business)
- Paint contractors (local business)

The above listed items are secured. Since July 5, 2013, this project has received ten (10) applications, and is still open to receive more. Late September 2013 is the scheduled date to paint the first house, located at 2201 Waitman Avenue.

Painting is a must, but there are additional minor repairs for a majority of these homes. To address these minor repairs WLCDC is requesting the City of Leesburg to fund this request with CRA funds in the amount of \$5,000.00.

Any suggestions that you might care to offer will be appreciated.

Sincerely,

Agnes S. Berry, President
