

September 16, 2014

Dear Leesburg City Commission & City Manager,

We, Jan and Bob Smithey, live at 1070 Island Way on the 9th St. Canal and would like to see the canal designated a bird sanctuary as we have been very distressed to see and hear hunters firing in our neighborhood. We personally paid and installed wood duck boxes to enjoy the canal wildlife and feel that our quality of life is being diminished and endangered by these hunters. Among the birds we see in the canal are: wood storks, bald eagles, herons, great blue herons, kingfishers, teals, coots, anhingas, cormorants, hawks, owls, whistling ducks, limpkins and 3 different types of geese. It has been very sad to see fewer birds, especially those considered endangered.

We would appreciate your serious consideration of this request.

Jan G. Smithey
