**RE: EVALUATION RESULTS: Request for Proposal (RFP) 80472
Airport Lighting Rehabilitation (Design-Build)**

The City of Leesburg would like to thank all firms which responded to RFP 80472 for providing the above subject Construction services.

An evaluation committee evaluated the proposals in accordance with the requirements detailed in the RFP. For each Proposal evaluated, numerical scores were assigned to the elements of information required by the scope of services and evaluation criteria.

The scores of the evaluation elements were totaled and converted to an ordinal/ranking. The rankings of each evaluator for each firm were totaled and then converted to an overall rank. Using this method has proven to minimize the effects of large variances when more than one evaluator scores a proposal.

The evaluations are now complete. Respondent firms are listed below in ranked order.

Based on the evaluation, a recommendation for award to the highest ranked firm (Number 1) will be made to the City Commission.

1. Electrical Services, Inc.
2. H.L. Pruitt Corporation
3. Himes Electric Company
4. New Florida Industrial Electric

Again, the City thanks you for your interest in providing the above services.

Best Regards,

Terry Pollard
Buyer
City of Leesburg, Florida
