Subject: RE: Generators

Puggy this project can be financed with 2007A bond proceeds -the City may already do such in the normal course but I would suggest as part of the process of approving this contract that the Commission approve a simple resolution that this project is part of the Electric System. This project clearly falls within the definition of the Electric System as improvements to electric generation facilities owned by the City. Please let me know if you want my assistance with simple resolution.
