RE: Bid Proposal

BID PROPOSAL

**For Tussock & Vegetation Removal in Lake Hollywood,
Leesburg, Florida**

Applied Aquatic Management, Inc. (AAM) will supply the following equipment to remove floating tussocks and aquatic vegetation from Lake Hollywood:

"Tiger Cut" Shredding Machine & Labor	\$160.00/hr
10ft wide Aquatic Weed Harvester, Shore Conveyor & Labor	\$150.00/hr
Dump Truck(s) & Licensed Driver (if required)	\$65.00/hr (each)

The cost for this project shall not exceed the amount of \$60,000.00.

The "Tiger Cut" shredding machine is **ESTIMATED** to be required for 5-7 days, depending on water depths and how many willow trees are to be cut and removed. The harvester, shore conveyor and dump truck(s) are **ESTIMATED** to be working for up to 12-14 days depending upon the amount of material floating and/or targeted for removal at the time the project begins.

Job Information:

AAM will utilize a "Tiger Cut" machine to shred willow trees and plant material around the lake's edge and use the harvester to remove floating shredded material and floating mud tussocks.

Workdays will be a minimum 8-10 hours per day.

All material harvested will be deposited at the City of Leesburg Spray field disposal site.

Start date and time can be as soon as all approvals are received and a "Notice to Proceed" is provided.

Please call, Telly Smith (863.287.1081) if you agree to this proposal and a start date can be arranged, or if you have any questions concerning this proposal.

Thank you for the opportunity to submit this proposal!
