**SCOPE OF SUPPLY**

**Clarifications:**

- It shall be the Purchaser's responsibility at the time start-up service is requested that jobsite conditions be ready for start-up service. All necessary utilities, such as air, water, electrical, and low voltage terminations shall be connected and functional. In addition, all process items directly related to the instrumentation system, such as pumps, motors, feeders, process equipment, etc shall be installed and ready for startup. Field Start-up and Training Services for this project are based on limited number of trips to the site. Any additional trips required to complete startup, resulting from non-Sanders Company equipment being non-functional or any additional time spent as a result of the Purchaser's failure to comply with the above, shall be charged to the Purchaser at the current demand service rate. We require notification at least ten (10) working days prior to the date start-up service is required.

**Exclusions:**

Unless specifically referenced above, Sanders Company excludes:

- All taxes, fees, permits, lien waivers, bonds and licenses.
- Pricing for items having a quantity of more than 1 cannot be assumed to be equally divisible into the total item price. If a quantity less than quoted is required please consult Sanders Company for pricing verification or a new quotation.
